

MARCO HOT WATER SYSTEMS

A WORLD LEADER IN PRECISION HOT WATER DELIVERY SYSTEMS

Known for products with superior temperature stability, Marco approaches product development with the goal of marrying technology and brewing excellence, with an eye for design. La Marzocco USA is the exclusive US distributor of Marco products for use in the specialty coffee industry.

ECOBOILER

The Ecoboiler is an energy-efficient water boiler with a compact on-counter footprint. Water is delivered at the set temperature, with temperature prioritized over fill. "Ecomode" brings energy efficiency to off-peak times by operating at 50% of capacity. Accommodates pour-over kettles and one-liter French press pots. Marco Ecoboiler is available in 5-liter and 10-liter options.

ECOSMART

Ecosmart on-counter and under-counter water boilers provide advanced temperature control and stability. A "smart" easy-to-read digital display provides live temperature readout and enables the barista to adjust temperature and dispense portion. Under-counter configurations include 7" or 11.5"-tall fonts, and 10- or 45-liter under-counter boilers, preserving counter space and encouraging customer interaction.

MARCO ECOSMART UNDER-COUNTER FONT OPTIONS

The Marco Ecosmart Under-counter font was redesigned in 2013 based on US customer feedback.

The new font features:

- **New dispense buttons.**

The Ecosmart Under-counter font buttons have been redesigned for a streamlined aesthetic, and improved durability and ease of serviceability.

- **A reduced-height option limits the distance between the counter and the dispense point.**

The reduction in the distance between the counter and the dispense point makes it easier to fill a kettle, while also limiting heat loss during dispense. The height of this new font is 7 inches (177mm). An 11.5" font is still available, and accommodates a 51-ounce Bodum French press pot.

ON-COUNTER

	ECOSMART	ECOBOILER	
	PB 10-Liter	T 5-Liter	T 10-Liter
Dispense	push-button	tap	tap
Output per hr (liters)	28	28	28
Height (in)	23	18	23
Width (in)	8	8	8
Depth (in)	18	20	20
Voltage VAC	220 single phase	220 single phase	220 single phase
Amp Service Required	20	20	20

ECOSMART UNDER-COUNTER

	SELECT A BOILER		SELECT A FONT	
	UC 10-Liter	UC 45-Liter*	7-inch	11.5-inch
