strada

The most technologically advanced traditional espresso machine featuring a barista-friendly design.

Designed for the modern café, with input from baristas

A lower profile invites customer engagement in a café setting, while also providing the barista an open, expansive work area.

The Strada platform has been designed to encourage creativity and customization so that each machine can be unique.
Independent Boilers
Separate boilers for each group head allow baristas to optimize temperature for individual coffees.

Thermal Stability System
As water passes through each element, temperature is further stabilized.

Dual PID (coffee & steam)
Allows you to electronically control coffee & steam boiler temperatures.

Hot Water Economizer
Enables you to fine-tune the tap water temperature for rinsing.

Adjustable, Deep Drip Tray
Accommodates a variety of cup sizes.

Exposed Groups
Ergonomics and workspace visibility.

Insulated Boilers
Reduce energy consumption while contributing to temperature stability.

Flow Restrictors
Flow restrictors resist scale formation and erosion.

Digital Display
Intuitive programming makes it easy to adjust machine parameters.

Performance Touch Steam Wand (AV only)
Vacuum-insulated double-walled steam wand remains cool to the touch while delivering high-volume dry steam.

Personalized Color*
Customizable colors based on the RAL color system, on request.

*Special Order

Proportional Steam Valve (EE & AV only)
Lever-style activation for proportional solenoid steam valve eliminates the need for regular maintenance.

La Marzocco Electronics (AV only)
Proprietary electronics first introduced on the Linea PB drive intuitive programming and provides heads-up information and systems monitoring.

Flow Meter (AV only)
A precision flow meter measures the flow of water applied to the coffee bed during brewing.

Periscope Pressure Gauges (MP only)
Monitor pressure at coffee during extraction.

Auto Backflush (EE & AV only)

### Auto Volumetric (AV)

- Height (in): 19
- Width (in): 32
- Depth (in): 27
- Weight (lbs): 217
- Voltage (VAC, Φ, Hz): 208-240, 1, 60
- Element Wattage: 4900
- Steam Boiler Capacity (liters): 8.2
- Coffee Boiler Capacity (liters): 1.3x2
- Amp Service Required: 30
- Certifications: UL-197, NSF-8, CAN/CSA-C22.2 No. 109
- Configurations Available: Semi-Automatic (EE), Manual Paddle (MP), Auto Volumetric (AV)

### Manual Paddle (MP)

- Height (in): 19
- Width (in): 40
- Depth (in): 27
- Weight (lbs): 286
- Voltage (VAC, Φ, Hz): 208-240, 1, 60
- Element Wattage: 6400
- Steam Boiler Capacity (liters): 11.8
- Coffee Boiler Capacity (liters): 1.3x3
- Amp Service Required: 50
- Certifications: UL-197, NSF-8, CAN/CSA-C22.2 No. 109
- Configurations Available: Semi-Automatic (EE), Manual Paddle (MP), Auto Volumetric (AV)

### Semi Automatic (EE)

- Height (in): 19
- Width (in): 40
- Depth (in): 27
- Weight (lbs): 286
- Voltage (VAC, Φ, Hz): 208-240, 1, 60
- Element Wattage: 6400
- Steam Boiler Capacity (liters): 11.8
- Coffee Boiler Capacity (liters): 1.3x3
- Amp Service Required: 50
- Certifications: UL-197, NSF-8, CAN/CSA-C22.2 No. 109
- Configurations Available: Semi-Automatic (EE), Manual Paddle (MP), Auto Volumetric (AV)
