AT LA MARZOCCO CAFE
WEEK 4 — MARCH 27 - APRIL 9

MENU NOTES

We've been looking forward to our residency at the La Marzocco Café for almost a year. As a team, we've been working toward developing a menu that we thought best represents us, and we're honored to collaborate with La Marzocco to execute it. This menu is a compilation of all of our favorite drinks we've served over the years. All of the coffee offerings will be rotating from the espresso to filter bar throughout the four week residency. Under "Comfort", try our most popular drinks like the Onyx Delight and Black Salt Mocha. The "Adventure" drinks range from warm to cold and comfortable to experimental, pulling heavy influences from flavors found around the world.

Aside from serving our favorite drinks, we wanted to do something special this month. We wanted to serve the Seattle community in a unique way. Every drink on the menu comes with a food pairing that compliments or heightens it's flavor experience. Think of this as our handshake with you. We truly hope you enjoy being served beautiful coffees and beverages by our partners here at the La Marzocco Café. -Dylan

SOURCING NOTES

In the past three months, we have visited Kenya, Ethiopia, Guatemala, El Salvador, Honduras and Colombia... whew. The buying this year has been fantastic! Coffees are cupping beautifully and producers are innovating their coffees to improve cup quality and price. We have four new social programs on three continents starting this year as well. Overall, it's been an incredible Winter, which is harvest time for most producing countries. The first lots to arrive are from Colombia, and we are showcasing them in this early Spring menu. Colombia has more unique micro-climates than anywhere in the world, therefore you can never define their coffees. Floral and delicate, heavy and chocolate, sweet and acidic... all of these characters are featured on this menu. Colombia is a beautiful example of expanding the reputation of what one country can be in a coffee and what flavors are defined in the coffee ethos overall. -Jon
