

la marzocco  
**strada**

**STRADA**  
**a machine developed by  
baristas for baristas,  
featuring sleek italian design**

**AVAILABLE CONFIGURATIONS**

//////  
no. groups: **2 | 3**  
configurations: **MP | EP |  
EE | AV | ABR**

Over the course of two years La Marzocco worked with 30 of the world's finest coffee professionals to design a machine. This group was known as the *Street Team*. The Strada, Italian for "street," was named in their honor.

A lower profile invites customer engagement in a café setting, while also providing the barista an open, expansive work area. The Strada platform has been designed to encourage creativity and customization so that each machine can be unique.

## STRADA HIGHLIGHT

### independent boilers

Independent boilers allow for more consistent temperature stability and the ability to set different temperatures on different groups. Setting individual group temperatures allows a café to optimize the brew temperature for different coffees they are offering on their menu. This is especially beneficial when serving both darker espresso blends and lighter single origin espresso.

## FEATURES

### la marzocco electronics (AV)

Proprietary electronics drive intuitive programming and provide heads-up information and systems monitoring

### thermal stability system

As water passes through each element, temperature is further stabilized

### auto backflush (EE and AV)

### pro touch steam wands

Vacuum-insulated double-walled steam wands remain cool while delivering high-volume dry steam

### proportional steam valve (EE and AV)

Lever-style activation for proportional solenoid steam valves eliminate the need for regular maintenance

### auto brew ratio (optional, AV only)

Precision scales incorporated into the electronics system provide the barista control over beverage mass

## SPECIFICATIONS

	2 group	3 group
<b>dimensions</b> (W x D x H)	32" x 27" x 19"	40" x 27" x 19"
<b>weight</b> (lbs)	217	286
<b>voltage</b> (VAC, phase, Hz)	208-240, 1, 60	208-240, 1, 60
<b>element wattage</b>	4900	6400
<b>steam boiler capacity</b> (liters)	8.2	11.8
<b>brew boiler capacity</b> (liters)	1.3 x2	1.3 x3
<b>amp service required</b>	30	50
<b>certifications</b>	UL-197, NSF-8, CAN / CSA-C22.2 No. 109
