## Machine Data

Serial Number: \_\_\_\_\_

Voltage: \_\_\_\_\_

Number of Groups: \_\_\_\_\_

## 3/9 month maintenance

- Clean and backflush machine
- Check portafilter baskets and springs.
- Replace group gaskets (**H.3.001**)
- Replace diffuser screen (**F.3.040**)
- Check brew temperature setting
- Check brewing pressure
- Check expansion valve operation
- Test flow-rate of each group (ml/30 sec)
- Test DC Voltage output from brain
- Test flow meter resistance (2.2kΩ +/- 10%)
- Test buttons for proper operation
- Check steam valves for proper operation
- Check fittings and valves for leaks
- Clean auto-fill probe
