La Marzocco Technical Bulletin #106

Treated Steam Tubes and Hot Water Spout

This bulletin is to inform you of some improvements La Marzocco has made regarding steam valve tubes and hot water spouts. Both are now treated with an improved coating, increasing resistance to wear and corrosion.

The new spare part codes for the Linea PB steam tube are:
T.1.155.01 (TUBE S.B.- LEFT STEAM VALVE TREATMENT)
T.1.156.01 (TUBE S.B.- RIGHT STEAM VALVE TREATMENT)

We are introducing the same improvement across all machines.

The spare part codes for the hot water tap are:
L160/3.01 for Strada and GS3
L160.01 for all other machines

Do not hesitate to contact our solutions team with any questions you have about this update.
