New filter baskets

The matte finish of the new filter baskets dims the shine on the surface of the filter. The new finish will ensure the correct operating principle of Vulcano-Swift tamping since it permits Vulcano-Swift grinders, and avoids channeling along the baskets walls.

New codes as follows:

Advanced Precision Filters

F.3.026.01 in place of F.3.026.GR (21 GR)

F.3.027.01 in place of F.3.027.GR (17 GR)
