la marzocco USA technical bulletin 186

new firmware for linea pb, strada av, kb90
March 19, 2024

We would like to inform you about the release of new machine firmware for Linea PB, Strada AV, and KB90.

The new firmware, version 1.16.0 RC3, fixes a bug that causes the auto on-off not to work, a bug that causes the brew ratio doses not to be correctly adjustable from the app, and some other minor bugs and mistranslations. Shot time is now display longer after the completion of the shot.

For machines built prior to and without IoT hardware, contact Solutions for instructions on manually loading the firmware from a USB stick. This new firmware is available on the La Marzocco Pro App for connected machines.

Download the Pro App:
