New gateway on Linea PB and KB90

November 16, 2025

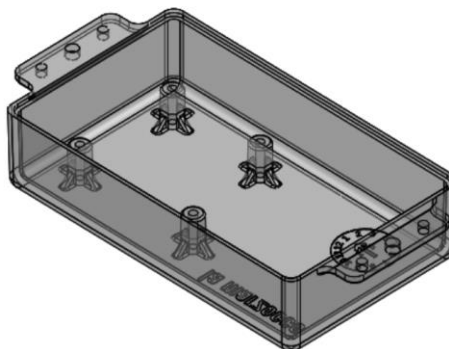

Dear Friends,

We are pleased to inform you of a new gateway in production for Linea PB and KB90 machines. The current gateway (P/N: E.8.006.03) will be replaced with a new gateway that no longer requires an external antenna. The new gateway will be installed in the same position as the existing one, under the frame.

E.4.456 - WIFI BOARD S3

F.1.212

All Linea PB machines starting from the serial numbers below have the new gateway:

- 2GR: PB054683
- 3GR: PB055228
- 4GR: PB057023

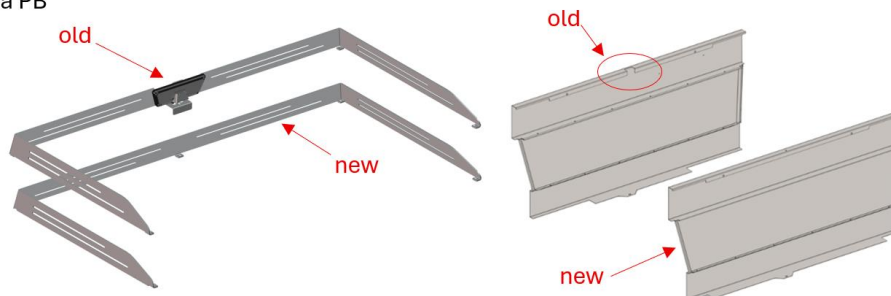

All KB90 machines starting from the serial number below have the new gateway:

- 2-3-4GR: KB006142

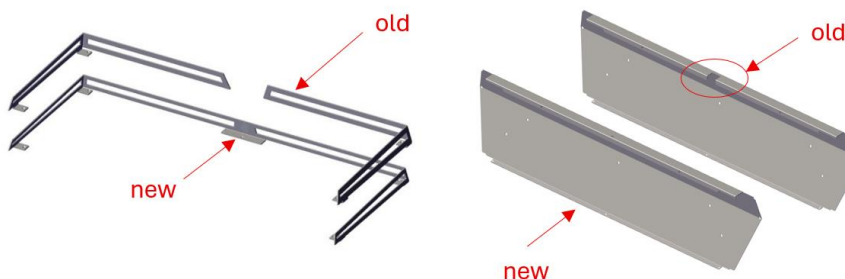

The previous gateway (P/N: E.8.006.03) will remain available for replacement on machines originally equipped with it.

New machines will now feature the one-piece cup rail and a back panel without the antenna slot. This back panel will be polished (KB90) or have a brushed finish (Linea PB).

Linea PB

KB90

Panels and rails are available as spare parts in old and new versions to ensure full compatibility. All part numbers are in the current catalogs and can be found at lamarzoccousa.com/support.
